

BOTSWANA BUREAU OF STANDARDS

PRESS RELEASE

For immediate release

It has been noted that individuals and/or organizations engaged in various quality-related training and consultancy activities have been using photocopies of standards from various National Standards Bureaux including standards published by the International Organization for Standardization (ISO). The Botswana Bureau of Standards (BOBS) wishes to advise all Botswana-based organizations and individuals engaged in such activities to immediately desist from this practice. Standards are copyrighted materials and infringement of these copyrights is illegal.

BOBS has made available a facility where standards from various sources can be sourced at a cost or for reference purposes. We are located on the Main Airport Road in Gaborone and our offices are open from Mondays to Fridays from 07:45 to 12:30 and from 14:00 to 17:00 (Public Holidays, Saturdays and Sundays excluded). BOBS has an office in Francistown. We can be contacted telephonically, by fax or by e-mail in order to arrange the purchase of the required standard.

BOBS, as a full member of ISO, has the responsibility to ensure that ISO standards and those of other ISO member bodies are used in a responsible manner in Botswana.
